The Qatari Law regarding the arrangements for hosting the FIFA World Cup Qatar 2022

In 2021, the state of Qatar issued a law called Law No 10 for the year 2021 regarding the arrangements for hosting the FIFA World Cup Qatar 2022\(^2\). The issuance of the law came in line with the Hosting Contract\(^3\), FIFA requirements\(^4\), and the Governmental Guarantees offered by the state of Qatar to the International Federation of Football Association “FIFA” on 22/02/2010. These guarantees are related to the following:

1. Entry and exit permits, passports, and travel procedures.
2. Work permits.
3. Tax exemption.
4. Safety and security.
5. Bank and foreign exchange operations.
6. Protection and exploitation of commercial rights.
7. Communications and information technology.
8. Legal issues and compensation.

This paper will highlight briefly on these topics in the same order adopted by the Law. It is worth mentioning that Article 2 of the Law provides for the purpose of the law and its’ time scope by stating that: “The provisions of this law shall apply for the purpose of holding the 2022 World Cup hosting events in the State of Qatar, not exceeding the period of the tournament\(^5\)”. This article in deed gives the Law its uniqueness; since the application of the Law will be only in a short and specified timeline, which makes in total approximately 45 days.

The Enabling Law is a unique law within Qatari legal system in terms of its duration and its exceptional rules; although the application of the law is limited to the duration of the tournament, but its effects may long remain within the legal practice in Qatar whenever the existence of such

\(^3\) According to Article 1 of the Law, Hosting Contract means; the contract for hosting the tournament and each contract stems from and results from it, as the case may be.

\(^4\) Article 1 of law defines FIFA requirements as the special standards and guarantees agreed upon in the hosting contract and the representations and undertakings contained in the government guarantees.

\(^5\) Article 1 of the Law defines Tournament period as the period that begins ten days before the opening match of the tournament and ends five days after the date of the last match of the tournament.
law deemed necessary or more practical. This is indeed desirable because Qatar is acting as an international sports hub in terms of hosting mega sport events.  

**Entry and exit permits, passports, and travel procedures.**

The main theme of the law was stated in Article 3 that, stipulates that: “The competent authorities are obligated to establish a quick and simplified mechanism to issue entry visas to the country, work permits and licenses, company registration, and any other permits, licenses or approvals required by this law, without restriction, condition or discrimination in any way”. Furthermore, Article 4 of the law continues to provide some details by stating that: “The granting of entry visas to the country is for foreign nationals”. Indicating that the granting of a visa to enter the country may be rejected or canceled based on security or health reasons, or to maintain public order or the security of the tournament. 

This provision indeed is of special significance in the shadow of the global health crisis caused by the Covid-19 epidemic and other public health concerns, and of course, it has a merit given the terrorists threats, which unfortunately appears or may appear from time to time.

6 In Monday 17 October 2022, the Asian Football Confederation (AFC) President Shaikh Salman bin Ebrahim Al Khalifa announced that Qatar will be the host nation for the 2023 Asian Cup football tournament after China withdrew earlier this year because of its “zero-COVID” policy. This is the third time Qatar will be hosting the tournament, having staged it in 1988 and 2011. He added “Qatar’s capabilities and track record in hosting major international sporting events and their meticulous attention to detail are well admired throughout the globe.” Given the short lead time in preparation, we know that the hard work begins immediately but with their existing world-class infrastructure and unrivalled hosting capabilities, we are confident that Qatar will stage a worthy spectacle befitting the prestige and stature of Asia’s crown jewel.”. 7 His Highness Sheikh Tamim bin Hamad Al-Thani, the Amir of Qatar make clear in speech to the UN General Assembly 77 when he said, “Qatar will welcome the world in November of this year when we host the FIFA World Cup 2022. The challenge we took up twelve years ago required real resolve, determination, a lot of planning and hard work. And here we are today, standing on the threshold of hosting the world's teams and their fans, and opening our doors in Doha for all of them without discrimination to enjoy the football matches and the amazing atmosphere of the tournament, in addition to witnessing the economic and cultural development in my country”. He went on to say, “In this tournament, which will be held for the first time in an Arab Muslim country and for the first time in the Middle East in general. The world will see that one of the small and medium-size countries is able to host global events with exceptional and impressive success, in addition to its ability to provide a spacious ambience for diversity and constructive interaction between peoples”. In addition, and to guarantee fairness and transparency the Security Committee shall notify the Supreme Committee of the reasons for the rejection or cancellation, and the Supreme Committee shall notify FIFA\(^8\) of these reasons.

Regarding the duration of the visas, the Law provides that visas shall be valid only for the period of the tournament. Therefore, entry visas granted in accordance with the provisions of this law to FIFA or the Supreme Committee shall expire with the end of the period of time for the tournament, and it is permissible, in cases of necessity, to request an extension for another period\(^9\). In practice, the SC and competent authorities issue Hayya Card to every person who buy a ticket to watch a match in the Qatar 2022 World Cup tournament. Hayya Card will allow its holder to enjoy many free of charge services such as transportation such as metro, buses and marine taxi. It will also allow the holder to get many other public services during his/her staying in Qatar against zero charge or a discounted one\(^10\).

The efficiency of this practice was examined in the Arab Cup hosted by Qatar in 2021 and proved to be efficient and helpful since it simplify the entry requirements to Qatar and qualify its holders to utilize many free public services.

In fact, such a practice applied by the Qatari authorities may set an example for Qatar and any other hosting state on how to deal with crowds willing to come to state in the future mega sport events.

The Hayya card practice may be considered as part of the legal and organizational legacy of the Mega sport events and FIFA World Cup, Qatar 2022. In this regard, the Amir of Qatar His Highness Sheikh Tamim bin Hamad Al-Thani while addressing the opening session of 77th UN General Assembly shed the light of the Hayya Card and the legacy it may leave on people’s movement across borders. HH states that; “We note the signs of the positive impact of this event in our region, as brotherly Arab countries regarded the Hayya card, which includes an entry visa to Qatar, as also a visa for Hayya Card holders to enter these countries. A situation that received a

**Labor law and some related legal instruments**

Radical and long waited amendments have been made to the Qatari Labor Law and to some relevant bylaws concerning workers’ right to change their employers without the permission of their previous employer, endorsement of the minimum wage²⁷. Mechanisms by the wages are paid, omission of the exit permit at the end of services, and other issues concerning organizing work hours during the summer days²⁸, a national fund to support workers and ensure their safety at work places, workers’ welfare and compensation in the event of employers’ closure²⁹. Many other aspects of reform were made such as reimbursement of unethical recruitment fees, launching pioneering cooling suits, introducing a first-of-its-kind nutrition programme, electronic medical records systems for workers and conducting quarterly audits and inspections across ethical recruitment, accommodation and construction sites.

²⁶Article 1 of the Law defines FIFA owned trademarks to mean Trademarks owned by FIFA related to tournaments organized by FIFA and hosted by the State, until the end of the FIFA World Cup Qatar 2022, even if they are not registered in the State of Qatar.

²⁷The Minimum wage is set to be 1000 QR per month, and 500 QR for accommodation, and 300 QR for meals if not provided by the employer. 1800 QR almost equal 500 USD. It is to be mentioned that the minimum wage committee will periodically revise this minimum wage according to inflation rates and living expense.

²⁸Starting for 1st June until 15 September, special working requirements and equipments are to be applied to protect workers from heat stress.

The Supreme Committee for Delivery and Legacy published the Workers’ Charter in 2013 to ensure the wellbeing, health, safety and security of workers at all times. To bring these principles into effect, the SC launched the Workers’ Welfare Standards in 2014 as mandatory requirements for contractors to be part of tournament-related projects 30.

These amendments and standards raise working standards in Qatar labor market and Qatar legislative frameworks up to recognized international standards or even beyond and may set an example for other states willing to reorganize its labor market and modernize its labor legislation in the GCC States 31 or elsewhere.
